

Why Choose Kerio MailServer Over Mac OS X Mail Server?

More collaboration features

- Microsoft Outlook groupware.
- Microsoft Entourage groupware.
- More Apple iCal features.
- Manage calendar, contacts, notes, tasks, and shared folders in WebMail.
- Cross-platform data.

More mobile device features

- Synchronize calendar and contacts wirelessly with desktop clients.
- Remotely wipe personal and business data from lost or stolen device.
- Receive new emails, and PIM changes instantly with direct push.

Comprehensive server solution

Get five products in one: collaboration server, mobile email, email security, email compliance, and server backup.

Stronger security

- Greater anti-spam protection.
- More anti-virus options, including dual anti-virus protection.
- Attachment filtering.

Reviews

"Excellent. Kerio MailServer is the only vendor to offer a complete cross-platform solution, supporting multiple protocols, working with CalDAV and iPhone."
Norbert Graf
Linux Magazin

"Kerio MailServer offers advanced anti-spam and anti-virus features, comprehensive connectivity, and strong mobile email support."
Jürgen Heyer
Internet Magazin

"Kerio MailServer was easier to use, less expensive, and provided more functionality than other products and provided the integration with Active Directory."
Akis Fotakelis
Windows IT Pro

Testimonials

"Security is without doubt the strength of Kerio MailServer. Other features offered by the solution, such as the sharing of contacts, activities and appointments, have allowed us to improve teamwork."

Roberto Polinelli
Mercedes Benz Italy

"Our OS X mail server no longer served our current needs. Kerio MailServer is easy to administer and comes with advanced anti-spam, anti-virus and scheduling features. We can better manage incoming emails and analyze unspecified addresses."

Martin Fredrik
DOK Architects

Global Reach

Kerio MailServer is used by thousands of schools, businesses, government agencies, and non-profit organizations in 138 countries.

About Kerio
